DAILY COURIER. AUGUST 16, 1858

Reading Matter on every page.

Death of Mayor Pilcher. Gen. Wm. S. Pilcher, a prominent citizen and eading politician in our city, died at the residence of Roht. Ayres, in Jefferson county, at 8 o'clock last Saturday night. His destroyer was a fatal disease of the heart, under which he has been sinking for some months past. His death was expected at any moment by himself and his riends, who had despaired of his recovery.

Geu. Pilcher was elected Mayor of Loulsville in April 1857. His term of office did not expire until April 1859. When the disease which cansed his dissolution rendered him incapable of attending to the duties of his office, the City Council appointed Thos. W. Riley, Mayor pro tent. This appointment was made under the following proision of the charter:

vision of the charter:

Art. 4.—Sec. 7.—Should the Mayor be temporily disabled from any cause from discharging the duties of his office, or should the office be vacated from any cause before the expiration of the term of office, the General Council shall upon joint hallot elect a Mayor protem,, who shall exercise the powers and discharge the duties of Mayor during the continuance of the Mayor's disability, or until a Mayor has been elected and qualified as herein prescribed. And the General Council shall allow such compensation to the Mayor pro tem. as they deem adequale for his services. As Mr. Riley was elected by the Council to

serve during the disability of Mayor Pilcher, another election will now be held to fill the vacance caused by the death of Gen. Pilcher. The section of the charter we have just quoted, conlers the power of holding this election upon the Council. Under it this body have the right to appoint a May or pro tem, during the disability of the Mayor lect, and also to appoint a Mayor to fill the va cancy or unexpired term which the death of the Mayor elect has caused.

The death of Mayor Pilcher will cause many re rets in the domestic, the social and the political ircle. He has been for years a leading politician, first as a Democrat, and last as an American. He and his friends and his foes, as all men do who en er the political arena. His faults were polititical only, and they should now be remembered no more llis virtues were those of the private citizen, and they should be held in kind recollection. The grave closed over all of him that was mortal, and et the dislike caused by heated party strife be ouried with what time destroys. His spirit has gone to the immortal world, and his virtues as a man, a friend, a father, a husband, and a citizen will not he forgotten by those who knew and loved in. His family now have our unalloyed sympa-, by in the deep affliction caused by his death.

The Fine Arts.

At first glance, one would naturally think that the uneuding vexation which the world at large suffers from politics, wars, etc., would completely annihilate all of that delicate eeling so necessary to produce and protect the ine arts. Yet, by looking deeper, and instituting ionest comparisons, we find that, notwithstand ing our age is more practical than any in the ast, there is still no diminution of the poetical pirit; that, hand in hand with reality, in seemly llowship, goes poetry, and the two have acquird such affinity that the one is ever lending its trength and the other ever weaving bright and delicate tissues for its companion. To be sure we cannot say that our government exhibits even a Lir instance of our proposition, and we are obliged to look abroad for a realization of the highest type of utilitarian art, and the noblest form of art encouragement.

In the thoroughly practical, America remains an example unprecedented in the history of the vorld, and perhaps it is only owing to youth that he does not already wear laurels nobly earned in very department of art and literature, which ith more or less justice. In old times it was serted that only the church could properly fosr art. Lately the saying became trite, that the ome of art was under a monarchical form of overnment. It is true that the majority of great forts in art have been subject to the influence of me or the other of these protectors, that doubtess many immortal works would never have exsted, had it not been for church patronage. Yet who shall say that genius, engendered by repubicanism, and nature untrameled in the air of liberty, could not have produced nobler works; nobler not only as regards art, but as being diested of all dogmas and traditions. Who shall say that there are not as many incidents worthy of representation in the life of a patriot as in the life of a saint. And when the patriot's deeds are great, and a great artist puts them in marble or upou canvas, who shall say when the multitude ware that their emotions are not as lofty as i they spraug from any other source but patriot

out, or independent love of art. That governments are the natural protectors ari, is quite certain; not only that they ought to perpetuate the great deeds of their own history but that they are best capable of affording space for the large canvases or colossal groups required for the proper interpretation of great subjects. Nevertheless, individuals have often usurped gov ruments in encouraging art, and with splendie berality, have placed noble works in a position where they were ever to remain as instructors to the people. Our own government, with all its ad vantages of youth, freedom, and freshness, has een very tardy. It is ouly within a short time that she has acknowledged her duties toward her children of genins, and even now, in many in stances, she leaves them to waste their strength while a thousand lofty subjects await pencil and chisel, and while enormous sums of surplus capi

tal flits away on the wings of the wind. The Western Argus, an excellent paper ublished at Wyandotte City, Kansas, gives the ollowing reasons for the recent vote in Kansas:

THE RESULT-ITS CAUSES. In accordance with universal expectation, th In accordance with universal expectation, the election, on Monday last, resulted in the rejection of the ordinance presented by Congress for the acceptance or rejection of the people of Kansas. Just what the vote may have been will not be known until the Board of Commissioners have performed their work which will probably not be in agreed weeks. several weeks.
The causes which have conspired to produc

The causes which have conspired to produce this result are mainly, as follows:

1st. The officers elected under the Lecompton constitution were chiefly extremists, in whom the people had no confidence, and to whom they were unwilling to confide the destinies of a new State.

2d. The Legislature which was to come into power, had the ordinance been accepted, was chosen when the notorious Lane was at the zenith i his power, and a majority of the members were aderstood to be pledged to his election to the

United States Senate.

To these two considerations may be attributed in the main the defeat of this measure. Other considerations of course had their influence. Maconsiderations of course had their influence. Many of the people were of the opinion that we ought to remain a territory until we were better able, pecuniarily, to assume the expense of a State government. Others again desire the guardianship and protection of the lederal government, believing property and life insecure should the government officers and troops be withdrawn.—Pro-slavery men very generally voted against it, because they preferred to remain a slave Territory rather than become a free State, while many hemografs yoted against it for the sake of retain-Democrats voted against it for the sake of retaining Gov. Denver, and the other federal appointees, in office, as their places would, on the adoption of the ordinance, have passed into the hand of the ultra Republicans.

Know. Nothing Technicalities.

The same technical enforcement of the elector a laws, by which the Know Nothing judges in Lonisville sought to defeat the popular will in the selection of a jailer, by issuing the certificate of election to Thomas instead of to Batman, would secure all the city offices in Lexington to the Democratic candidates. There was but one precinct in Fayette country in which the election was legally conducted, and it so happens in that (the 7th district, city of Lexington) the Democratic candidates for city judge, clerk of the city court, and city marshal, received a majority of votes.—Hence, if the polls of the remaining precincts be rejected as illegal, for which there is quite as much, and more, reason than for the rejection of the unsigned pages of the Louisville poll books, Thomas, Wood, and Foushee will be laft with a clear majority over their competitors.

We are gratified to know, however, that there is not a Democrat on our ticket who would hold an office on obtained. Know. Nothing Technicalities

we are grained to know, nowever, that there is not a Democrat on our ticket who would hold an office so obtained. Not one of them would have an office in the face of a majority of the voters of the city, nor one who would, to promote his own personal interests, attempt to disfranchise a large body of his fellow citizens. The people have body of his fellow citizens. The people have spoken, and it becomes Democrats to submit like men, and not resort to trickery and knavery to obtain office. It is the part of Know Nothingism to gain its triumphs by violence, Iraud, and quibbles. Like the drowning man, the prostante faction grangs at every straw which floats by. The steamer Commodore, registered as the Brother Jonathan, an old tub, which has long been

styled 'the floating coffin,' had a very narrow escape, on the 13th inst, from swamping. She had started from here, on the 5th, with 350 adventurers, for Frazer river, and on the fith day ont encountered a stiff head wind. Now it so happened that she had been filled with merchandise, which that she had been filled with merchandise, which was stowed in a very improper manner—200 tuns of it being on deck and the bad stowage, combined with the museaworthiness of the vessel, caused her to be unable to meet a breeze, against which a good sailing ship would have safely gone with double-reefed topsails. The Commodore soon began to leak and creak, and then it was found that all the pumps were out of order, and there was no ship carpenter, or tools belonging to there was no ship carpenter, or tools belonging to the vessel, on board. Fortunately many of the pas-sengers had carpenters' tools, and knew how to use them. After throwing 600 tuns of merchandise overboard, including fourteen horses, which were first shot, the passengers knocked the heads out of some liquor tierces, spilled the precious contents, and rigged the casks to the rigging, to bail out the water in the hold. While these tierces were kept in constant operation at the hatchways, by organized gangs of men, other parties worked with huggers, and after 20 hourse during which ith buckets; and after 30 hours, during which the vessel was in constant danger of swamping, she arrived at this port, for which she had turned as soon as the danger became great. A correspondent of the Philadelphia Ledger, riting from China, gives a thrilling account of the capture of the Pecho Forts by the English and French. After stating that the English

steamer Cormorant, Capt. Sanmarez, was ordered

to open the battle, the writer proceeds.

As soon as the Cormorant steamed up against As soon as the Cormorant steamed up against the hawser, it parted like a leugth of packthread, and gave the signal of battle to the forts. Their earthen sides at once helched forth iron and flame, tearing the water in scores of places and hulling the advancing steamer upon her port side. "Flat down at your guns," cried the intrepid Saumarez. And at the command every man cast himself flat upon the steamer's deck, and allowed the iron shower to pass on its, way, the himself. It is rumored that Geo. Christy has made an the iron shower to pass on its way. He, himself, however, strode impatiently the elevated pooplike the brave man he is, directed the men at the ins, examined the forts through his glass, and so walked along the forecastle. The iron show-was succeeded by a second and a third—finally the discharge was almost continuous. Still the steamer moved steadily ahead, dark, silent, mutilated—but threatening as a sleeping voicano. At length we see her arrive abreast of the fith fort, and at the same instant we notice a signal fluttering from the mast-head of the gunboat of the two admirals. he two admirals. It is the "parting of the er" of the allies; the emblem of war, the or signal for the bursting of the volcano ssive and dense volums of smoke now hurst from the sides of the arrested steamer, envelope her in a surging cloud, and hide from view the furious working of the guns which succeed. The rapid and heavy discharges, preceded by Inrid flashes of flame and followed by clouds of dust and signs of disorder in the fort, tell plainly enough, however of the work of death that is made way. er, of the work of death that is under way

The bombardment is now general, and has lasted or an hour or more. Still, the Chinese hang ravely by their guus, urged to courage by their nandarins, who, strange to say, are not, in this case, the first to run. Some manenver must therefore be resorted to, for many of the steamers have een badly hulled, and many valuable lives al-ady lost. There it goes. Another fluttering ignal from the guu-boat of the admiral. That sigignal from the guu-boat of the admiral. That signal means: "Away there, stormers, and scale the orts." One would think that it was written in arge letters, instead of being indicated by flags, o quickly is it obeyed. LOUISVILLE, Aug. 14, 1858.
Editors Louisville Courier: Upon my return
ome yesterday, after an absence of some ten days, my attention was called to a controversy in regard to the disturbances during the election at the First Ward polls. I deem it necessary under the circumstances, to make the following state ment of facts in regard to the matter:

I was at the First Ward polls about four o'clock

in the afternoon. There was a crowd around the door, and a disturbance or fight occurred. Mr. Tompkins was near the center of the crowd. I heard from Mr Timmins that there was an old man who was being whipped. I did not see the man in the crowd, and did not see Mr. Tompkins draw a pistol. Mr. Timmius informed me at the time he had done so, but I did not see it personally. The crowd was so dense and excited that I could not see the occurrences, as I was standing about fifteen feet from the capter of the crowd. about fifteen feet from the center of the crowd. have known Mr. Timmins some twenty years. He bears the character of a respectable citizen and of a man of truth and integrity.

Wast Point, Ky., Aug. 14.

Editors Louisville Courier: On day before yesterday, a little son of J. G. Guthrie, of this place, was drowned in the Obio, about one mile above this place. He had gone in with two other boys to bathe, and being unable to swim, had got a log and floated out some thirty or forty feet into the river, when he discovered a steamboat and became alarmed. He made some effort to reach the above with the log, but became frightened, so that he jumped off into the water and drowned. The most diligent search has been made for his body, but up to this time it has not been recovered.

Jackson, Phiadelphia—Dear Sir: I have been afficted with Dyspepsia for a number of years, and until three years since I could find nothing which would at ford me relief. Fortunately for me, I heard of "Dr. Hoofland's German Bitters," and thought would try them, not, however, with much fair that I could be benefitted by their use.

To my surprise I found that on taking a few doses I was relieved of the pain in my side and chest, my appetite became good, I gained strength, and in tact felt stronger and in better health than I had for a long time. I do not allow myself the beout of Bitters if I can obtain them, for nothing the chest them are not and a silling the chest there are not a silling the silling that the silling that the silling the silling that the s else does me any good. I am willing at all time and ready to state my case to any one who ma wish to know the full particulars, and shall, with leasure, recommend them to all who may pleasure, recommend them to all who may be ar-dicted with Dyspepsia or Liver Complaint, for I believe if anything will give them relief they will be relieved by Hootland's German Bitters. Many persons in this district have used the Bitters with eficial results, and I have no doubt you could get a number of certificates were you to ask them for to my certain knowledge quite a number have been very unch benefitted by the use of your

PEWEE VALLEY RESIDENCE:
Farm or Orchard Grounds for sale in
Pewee Valley.

Wishing to conceorate my attention upon
either fruit-culture or farming, separately, I am
induced to offer for sale either my orchards or
my farm, in Pewee Valley. The orchard grounds consist of 2 to 30 acres, close to the railroad station, emeraeing the best varieties of all the fruits successfully cultivated in this region—Apples, Peaches, Pears, Grapes,
Raspberries, Strawberries, &c. Upon these grounds
there is a fine sugar-tree grove, and a small unmished
cottage. The farm consists of 110 acres, lying within
thirty minutes ride of the station, about one-hard of
which is in meadow and pasture. It is good upland,
rolling, healthy and pictures que, supplied with the purest sater from three unfailing springs, and a natural
fish pond of considerable extent. It has an apple and
speach orchard now in full bearing, with a sufficient suppity of pears, piums, strawbenies and currents. The
buildings consists of a plain but comfortable farm house
of seven recess, with smoke stables, orbs, and
other old-fashloned out buildings. Terms easy. A general description of the place, with price, can be had of
Mr. Haldeman, at the office of the housewist Courier.
I will meet any gentleman who may desire to vials the
previous day by note addressed to Pewe Valley Pout.

BY TELEGRAPH.

From Washington.
Washington, Aug. 14.—Dates from Matamoras
to the 19th July are received via New Orleans.
Durango had fallen into the hunds of forces under the government of Chihuaha, who declared lajara and Zacatecas had also been conquered by the liberals. General Garza had left Matamoras to superin-

tend in person the movements of the Tamaulipa General Vidauri was to take the field on the 27th, at the head of the main body of the army of the north.

Immediately on taking San Luis Potosi, Colonel Zuazua hanished the bishop of the diocese and thirty priests, for encouraging the reactionary forces to resist his entrance.

Atlantic Telegraph Cable. Atlantic Telegraph Cable.

Trainity Bay, Aug. 13.—Mr. Whitehouse and his assistants decline to give any information respecting the electrical operations on the submarine telegraph, excepting that signals are constantly passing through the cable. All rumors to the contrary are unfounded. We hazard little, however, in saying that it has as yet been found impossible to work Mr. Whitehouse's recording instrument successfully. No doubt is entertained, however, that the Hughes instrument, when ready, will overcome all difficulty.

From Santa Fe. Sr. Louis, Aug. 14.—The Santa Fe mail, with dates to the 26th of July, arrived at Independence on the 10th inst. The news is unimport-

ant.
Crops are reported very fine.
The health of Santa Fe was good and husiness reviving. reviving.
The Navajo Indians killed a negro belonging to The Navajo Indians killed a negro belonging to Major Brooks, of Fort Defiance, and refused to Major Brooks, of Fort Defiance, and refused to Major Brooks of Fort Defiance, and refused to deliver up the murderer. Destructive Fire. Sr. Locis, Aug. 14.—The work shops, the dining tell, the chapel, the bospital, and two or three other small huldings, together with a large quantity of material and finished work belonging to the Pentientiary at Alton, were destroyed by fire last night. Loss \$30,000; fully insued. The State loses nothing, Messrs. Sauger & Carri having purchased the entire property from the State some time since. some time since.

Arrived. CHARLESTON, Aug. 18.—The steamship Cahaw-ba, from Havana, via Key West, of the 10 inst., has arrived at this port.

M. Saias, the Spanish Consul, was drowned at Key West on the 27th of July.

Preparation For the Queen's Message. Chicago, Aug. 14.—Active preparations are eing made, under the auspices of the Board of Trade, for the purpose of a suitable demonstration on receipt of the Queen's message. A large amount was subscribed at a meeting to-day; a committee was appointed, and congratulatory resolutions to Cyrus W. Field were adopted.

Murdered. Hamptonsburg, Orange Co., N. Y.—Last night Peter Shorbich and Margaret Shealey were both murdered by an unsuccessful rival for the latter's favor; named Wm. Saunders. Great excitement exists in the vicinity in consequence, and a general search for the murderer is being made. He has thus far eluded the discovery.

Gen. Jerez-Transit Route-Ten Million Loan, &c. Washington, Aug. 11.—General Jerez, the spe-cial representative of Nicaragua, with his suite, is expected in this city to-morrow morning from Bedford Springs, where he has been to have an interview with the President in relation to the affairs of his country

The policy of the Administration in reference to the Nicaragua Transit has been thoroughly and definitely settled. Without undertaking to define the peculiar interests of our citizens, they are de-termined to require and enforce the opening of the route, and fully to protect whoever may be the legal claimants under the Nicaraguan Government General Jerez' mission will turn out an utter failare, as the Administration will in no event permi the Nicaraguan Government any longer to trade and traffic on the Transit question. About one-third of the Ten Million Loan has already been deposited in the Treasury, together with the premium, and it is confidently expected that by the lat of Sestember the entire amount

will be paid in. An extensior of time could have been obtained by the bidders, but, as the interest will not commence until the deposits are made, there are few likely to avail themselves of the RISTOUS ATTACE ON A BALTIMORE NEWSPAPER OFFICE.—An attack was made on the office of the Exchange newspaper. At 11 o'clock to-day about a dozen men arrived, armed with revolvers, and at a given signal gathered at the office.

They covered the operations of two who entered and assaulted the superintendent, Mr. Carter, with bricks and other missiles, broke the furniture, etc.

He was badly injured. One arrest was made.—

He was badly injured. One arrest was made.— There is much excitement. Since the occurrence, the subscription list of the paper has increased

three hundred.

The Exchange has lately been pretty severe upon a policema named English, and his course at a late riot.—Phil. Eve. Bulletin.

Oswego, Aug. 13

A nre was discovered about half-past one this A.
M., in the Empire Grain Elevator, owned by F.
T. Covingion and P. Rathboue, which spread
rapidly through the building, destroying it, together with grain stored in it, amounting to
about 60,000 bushels, nearly two thirds of which was corn. The Elevator was valued at from \$30, 000 to \$35,000, and insured for \$22,000. The grain was mostly insured. Total loss estimated at \$75,000. All the insurance is in eastern offices

It is understood in Washington that any further negotiations with respect to the New Granadian treaty will positively be declined, for the reason that the ultimatum of the Administration has already been substantially rejected by the New Granadian Government. The President is expected to return from Redderd Springer is expected to return from Bedford Springs to Washington to day, and the couse which he will

be likely to pursue in regard to this matter, is the subject of considerable speculation at the Capital.—N. Y. Times. THE HOO CHOLERA.—This complaint, says the Oiney (III.) Press, has at length reached our county. Many farmers have lost almost their whole stock. We are informed by a gentleman from Lawrence county that the disease has carried off from one-half to two-thirds of the hogs in some localities. The annimals are variously attacked. Sometimes the flesh feath falls from the attacked. Sometimes the flesh falls from the attacked. Sometimes the flesh falls from the bones while life still animates the carcass. The disease is exceedingly fatal in Wabash county.— A farmer near Bald bill Prairie, out of three hundred head, has but forty left. He also lest four steers with the same complaint; and even chickens are infected and die by dozens. There are those in Wabash who have lost cattle and horses by apparently the same complaint.

parently the same complaint. A STORM .- Yesterday afternoon a rain storm of A STORM.—Yesterday afternoon a rain storm of unusual violence discharged itself over the city. For an hour or two the streets were entirely flooded, and to a greater depth than we ever knew them to be before in so short a time. The storm was accompanied by thunder and lightning of the most terrific character, but we have heard of no damage done thereby. Considering the severity and continuance of the rain in the city, it is somewhat singular that twenty-five miles below the city not a drop fell.—N. O. Pic., Tuesday.

The Louisville Journal desires us to correct the statement that Gen. Pilcher has become a Catholic. His family say it is not true. Our informant heard it from a citizen of Louisville, who was supposed to be well informed.—New Albany Ledger.

On WEDNESDAY, the first day of September, the understand will open a school next door to his residence, on the south side of Broadway, between First and Brook streets. Not more than twenty pupils will be admitted. Dr. Guentz will devote his whole time and his undivided attention to their tuition and management.

his undivided uttention to their tuition and management.

Instruction will be given in all branches belonging to a complete English education, as well as in the Mathematics, the Classics, the Modern Languages and the Sciences. There is ample room for gymnastic and other out-door exercise near the school house.

It is deemed unnecessary to assure this community that the instruction will be thorough and the discipline strict, but at the same time kind and mild in its application. Since the sancess of the "Select English and Classical Institute," which Dr. Gucatz had in this city from 1848 to 1839, has established facts that speak for themselves, it may therefore suffice to state that his present school will be organized on the same principles and conducted on the same plan as his former one.

Terms—Per session of twenty three weeks, \$50 60 No extras whatever.

Early application will be duly appreciated.

A. GUENTZ.

BOERHAVE'S HOLLAND BUTERS THE CELEBRATED HOLLAND RESEDY FOR

DISEASE OF THE KIDNEYS, LIVER COMPLAINT,

DYSPEPSIA.

Weakness of any kind, FEVER AND AGUE,

STOMACH OR LIVER. Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Cos-diveness, Blind and Bieeding Files. In all Nervous. Rheumatic, and Neuralgic Americans, it has in nunerous instances proved highly beneficial, and in there educates a decided give.

This is a purely vegetable compound, prepared or scrictly scientific principles after the manner of the celebrated Holland Professor, Berhave, Because of Its great success in most of the European States, its introduction into the United States was intended more especially for those of our father and intended more especially for those of our father and scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of archet spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION:

The great popularity of this delightful Aroma has induced many initations, which the public should guard against purchasing. Be not persuaded to buy anything clea until you have given Berhave's Holland Bitters a fair trial. One bottle will couvince how infinitely superior it is to all these initiations.

THE RIVER is slowly and surely receding to a low stage, with some four feet water in the canal last evening by the mark. This makes acant five feet for ateamboats, which is about the channe depth below the falls on the shoalest bars. During the past 48 hours the river had receded three inches at the head of the falls, which is 8 inches at Portland. The weather yesterday morning was rather pleasant, as compared with the interminable heat which had prevailed throughout the week, though still too warm for comfort or health. A change with rain is very desirable. The Alice-For Galvesron, Taxas.—Saturday, the Alice, a new and light propeller, arrived at the wharf, on her way to Texas direct, in charge of Capt. J. E. Wilson. She is a small, staunch craft, drawing but 18 or 20 inches water, and can not possibly be delayed by sand bars. The Alice is owned by Capt. Wilson, a very clever gentle-man, who built her expressly for the accommoda tion of planters and citizens at Brazoria and Gal-veston, Texas, to carry back and forth the pro-ducts of the plantations and the supplies for the planters. A good deal of sugar is grown in that region, as well as cotton and corn, and the little ice will have plenty to do.

The Alice starts South to-day at noon, from the city wharf, offering a good chance to passengers and shippers to Texas, as she goes through direct, and will take a limited freight. Capt. Wilson will also take New Orleans freight, with the privilege of re-shipping at Plaquemine, as the Alice goes down Bayou Plaquemine, which, of course, cuts off New Orleans.

The Mississippi is falling at all points, from the upper rapids to New Orleans, and though the fall at the latter point is estimated only by inches, at Natchez it had receded altogether, from its greatest attitude, about three feet.

At points farther up the river the fall has been

reater, the deposits in many inundated districts. being sufficient to make swamp lands available for cultivation, and richly re-paying the owners for their losses and troubles by the flood. At Pittsburgh the water is very low-too low for navigation, while at Marietta there were less

than three feet water Saturday.

By dispatches from Parkersburg Friday eveing it appears that no boats had passed that point, either up or down, that day. At Blennerhassett here were but three feet water. The Harmonia, the last arrival from Pittsburgh, met the Commerce at Brown's Island; Orblaid up

To the Stock holders of the Southern Pacific Railroad Company of Texas.

A GENERAL meeting of Stockholders will be held in Louisville, Kentacky, on the 24th day of Angust next. Business of great importance will be brought before the meeting demanding the attention of all interested. The enterprise promises all that has been claimed for it by its most enthusiastic and extravagant advocates; its past management has been marked by errors of the grossest character, but it may yet, by wise consels and good management, in future be made to meet the largest expectations of its friends. This is "the shortest, best, and cheapest route" connected by railway of the Atlantie and Pacific oceans. The press throughout the country will render this enterprise and way of the Atlantic and Facility
throughout the country will render this enterprise and
the scattered stockholders over twenty-six States of the

ANOTHER TRIUMPHI

The subscriber respectfully invites the attention of the public, and of purchasers particularly, to the superior PREMIUM PLANOS, Mannfactured by him. A spiendld assortment constantly on band.

Our Pianos have received a Premium two years in succession, 1856 and 1851, at the Fairs of the American Institute, Crystal Palace, in competition with most of the leading mannfacturers of New York and Boston, and are nuquestionably of the best quality of tono, full, round and brilliant, as well as finish and durability, and we fiatter ourselves, by the approvaf of renowned artists, in venturing to say that our Planos stand superior to many others, and equal to any Grand Piano in regard to volume of tone and elasticity of touch, combined with the greatest firmness, which is very rarely met with in other Planos.

Wo respectfully solicit an examination from strangers and friends, to convince themselves of the above befors purchasing elsewhere. All our Pianos are warranted.

Warerooms, 100 Cannas St., Niw York. apil ddm THE subscribers beg leave to inform builders and others, that they have purchased at a high price the right for Kentucky of "SPEER'S WEATHER STRIP LOCK," an article which has only to be seen to commend itself to architects and builders. It is very simple in its operations, cannot get out of order, is a perfect weather and dust guard, is secure against the operations of burglars, prevents all noise by the wind and slamming, and is cheaper and better for French windows than any article yet invented.

We now offer the right for every county in Kentucky, except Jofferson, which we reserve for onresives, for sale on such liberal terms as must make it a profusible invest-

ment.

Speer's Weather Strip Lock may be seen in operation at the hardware store of John Hart, Market street, between Eighth and Minth, and at the carpenter shop of Schon & Tobin, on Fourth street, beyond Chestnut, of whom all desired information can be obtained.
